## ABOUT

Impact-driven builder of fast, accessible UIs. I care about design tokens, clean semantics, and performance budgets. I enjoy mentoring and teaching front-end fundamentals to help teams move quickly with quality.

## EXPERIENCE

### Lead Front-End Engineer Atlas Systems • Amman

2025

- Shipped a design-token pipeline (Style Dictionary) that unified 3 products; reduced CSS drift by 40%.
- Migrated legacy CSS to CSS Grid/Flex patterns; cut layout bugs across viewports by ~60%.
- Championed performance budgets; improved median LCP from 3.3s → 2.2s on mid-range devices.

### Senior Front-End Developer Tech Co • Amman

2023 — 2024

- Built an internal component library; trimmed CSS bundle by 30% using tokens and utility classes.
- Led a11y upgrades to WCAG 2.1 AA; authored checklists and example PRs for the team.
- Partnered with Design to improve Figma → code handoff; reduced rework and improved consistency.

↑ Back to top

### Web Designer Creative Studio • Remote

2020 — 2023

- Prototyped and shipped 12 marketing sites with modern CSS; introduced shared brand tokens.
- Delivered semantic HTML/CSS handoffs that accelerated dev sprints by ~20%.

↑ Back to top

### Volunteer Mentor Local Coding Club

2022 — Present

- Weekly workshops helping beginners ship their first pages using semantic HTML and modern CSS.
- Reviewed student projects; introduced accessible patterns and responsive techniques.

## SKILLS & TOOLS

Semantic HTML

CSS Grid & Flexbox

Accessibility (WCAG)

Design Tokens

## SELECTED PROJECTS

### PORTFOLIO WEBSITE

Static site scoring 95+ on Lighthouse Performance; optimized fonts & images; CI/CD previews for PRs.

### PERF BUDGETS KIT

Starter budgets, bundle limits, and checklists to keep teams honest as products scale.

### DESIGN SYSTEM DEMO

Token-based theming with CSS variables; documented components with usage guidelines.

### A11Y AUDIT TOOLKIT

Keyboard flows, color contrast testing, and heuristics to drive WCAG 2.1 AA improvements.

## EDUCATION

### B.Sc. Computer Science

2016 — 2020  
University Name

Graduated with Honors. Focused on software engineering, data structures, and algorithms.

### M.Sc. Information Technology

2021 — 2023  
Tech Institute

Specialized in cloud computing and modern web application development.

### Front-End Web Development Certification

2023

Online Academy

Completed intensive bootcamp covering HTML5, CSS3, JavaScript, and React.
